

MONTEZUMA COUNTY, COLORADO

EMERGENCY PREPAREDNESS NEWSLETTER

January 1, 2010

Welcome to the New Year, and a new decade!

There's a lot to do in the Office of Emergency Management...end-of-year reports to the County and the State, planning meetings and training opportunities.

I had a lot of support and assistance during my first months, and my thanks to all of you!

Here's a brief summary of some of the accomplishments in my office in 2009.

- Upgraded the capability of the County's Mobile Command Post
- Created a Facebook page for the Office of Emergency Management
- Developed a Public Information Officer group for the County
- Began a review of the Community Wildfire Protection Plan

There are lots of other projects in the works which will, I believe, improve our emergency response network and capabilities.

Take care and stay safe!

Doug
