

**NON FRIABLE ASBESTOS MANIFEST**

To: MONTEZUMA COUNTY LANDFILL, 26100 County Road F, Cortez, CO 81321-8104  
 Ph: (970) 565-9858 Fax: (970) 565-9309

**GENERATOR INFORMATION**

The following information must be completed prior to disposal of non friable asbestos at the landfill.

**Owner Information (location of where asbestos is removed, owner's name & address – if different than work site)**

|                      |                        |       |
|----------------------|------------------------|-------|
| Owner's Name/Address | Work Site Name/Address | Phone |
|----------------------|------------------------|-------|

**Transporter's (if other than owner brings material, complete the following):**

|                  |       |
|------------------|-------|
| Name and address | Phone |
|------------------|-------|

**Material Information**

|             |                    |
|-------------|--------------------|
| Description | Estimated Quantity |
|-------------|--------------------|

**Special handling instructions and additional information** Non friable asbestos must be in heavy duty plastic bags and sealed (with duct tape or similar material or the bag is knotted closed) in order to be accepted at the landfill. Alternative methods of containment require prior approval by the landfill manager. Material should be removed in such a way as to limit dust, ie. dampen the material or hand nail removal, place the material directly into the plastic bag and load onto the truck/trailer or other conveyance to be used. *Material will only be accepted Monday – Friday from 8 am to 3 pm with one (1) working day notice given before bringing for disposal.*

**Owner or Transporter's Certification:** I declare that the contents of this shipment (load) are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and government regulations.

\_\_\_\_\_ Printed/typed name                      \_\_\_\_\_ Signature                      \_\_\_\_\_ Date (Month-Day-Year)

Floor tiles, ripple style asbestos siding, and tar impregnated asbestos shingles will typically be non-friable. Generator's are responsible for fiber testing to determine friable versus non friable status of asbestos.

***For Landfill Use Only Below this point***

Discrepancies noted on load

**Landfill Certification:** Certification of receipt of non friable asbestos materials covered by this manifest except as noted in discrepancies above.
